

# Prerequisite Chart for Mathematics, Grades 9-12

(Effective September 2007)

**Note:**

- Three (3) math courses are required for the OSSD and must include at least one senior math (grade 11 or 12).
- **Achievement Expectations:** Level 3 (70%-79%) is the provincial standards indicating that the student is prepared for subsequent work and grades.
- The new Advanced Functions course (MHF4U) can precede or can be taken concurrently with Calculus and Vectors (MCV4U).
- This chart does not depict all possible movements from course to course.
